A collage of ten student photos with white, torn-edge borders is positioned at the bottom of the page. The photos show various students in different settings: some are posing in groups, one is looking at a phone, and another is wearing a lacrosse jersey. The background of the entire page is a photograph of a stone archway at Westwood High School.

The Yearbook Dedication

Presented to Mr. Giurleo on Class Day
by Camille Rogers & Brad Baldwin, on behalf of the Class of 2009

Each year, the graduating class identifies one individual who has had a significant positive impact on the class and school community to whom to dedicate the yearbook. This year, members of the class of 2009 have resoundingly selected Mr. Giurleo.

The first time I saw Mr. Giurleo was at my fourth grade cello recital. Even at that young age, I was amazed that the high school music director was attending and speaking at my tiny level of the music program. In his witty, animated way that I grew to know well, Mr. G emphasized the importance of music and the need to keep music programs thriving in Westwood schools. He became a fixture at all of my recitals and those of my friends, and according to many, he hasn't missed a performance, at any level, since. That right there is dedication.

Mr. G's empire spans over almost everything musical in Westwood. He's the K-12 director of performing arts, the department head of the WHS performing arts, teaches the WHS concert band, wind ensemble, and piano lab, runs the after-school jazz band, oversees the prodigy program, and conducts the WHS musical pit band. Basically, if there's live music, you'll likely find Mr. G and his baton.

According to Kathleen Lally, "Mr. G is very knowledgeable about everything music, and always tries his hardest to make us better musicians." But how did he become so knowledgeable? He received a bachelor of music education degree from the University of Lowell in 1964, got his masters in music from Boston University, and received the certificate of advanced graduate studies in educational leadership from Bridgewater State College. He then became the K-12 Coordinator of Music in the Adams-Cheshire regional school district for seven years, and went on to become the Administrative Director of Music for Dedham for seven years. And then, in September of 1984, Mr. Giurleo came to Westwood...and the rest is history!

What is most inspirational about Mr. G. is the enormous amount of faith he has in his students and in his program. Laura Anderson says, "He knows that most of the kids who walk out of chorus or band class are not going to be professional musicians; however, he instills his love of music in all of us."

He keeps class invigorating with hilarious jokes and stories. Mr. G also takes his vigor beyond the classroom. Sami Hamdan says that "He has kept the music program running smoothly in the face of many obstacles. In 2007, he worked tirelessly to bring orchestra back into the WHS curriculum. Despite the burden of budget cuts, Mr. Giurleo has always been the defender of musical integrity."

Overall, Mr. Giurleo's wit, level of involvement, and devotion have been unmatched in his time at WHS.

Mary McDonnell says, "You see Mr. G, you smile. He makes the shows seem amazing by laughing uproariously all the time. His speeches during band concerts are phenomenal. He's a good person."

Elizabeth Haffey says, "He has been a driving force behind my positive high school experiences, and more than deserves recognition for his passion, great sense of humor, and years of hard work."

Kevin Boettger says, "His jokes are hilarious. No one is a better motivator; year after year, he has gotten his ensembles to perform well."

Alex Moin says, "He has high expectations of excellence, and makes us work to meet them every day. Mr. G's sense of humor is unparalleled in any other teacher."

Hilary Sugg says, "His love of music is contagious and has inspired my growth as a musician over these four fun years of band."

Jonathan Neimann says, "He is dedicated to his students and creates a learning environment that is both fun and successful. He will be greatly missed."

And somebody anonymously wrote something that the class of 2009, a class that makes up more than half the wind ensemble, can agree with: "He's the man."

Congratulations to Mr. G!

Student Government

Student Council

Student council is comprised of a group of students from each grade who put hard work and creative energy into planning the school's social agenda. The council has weekly meetings, run by the officers, at which members plan and execute the upcoming events. Some of the highlights of 2009 include: the homecoming dance and spirit week, two spirited pep rallies, a black and white dance, two tee-shirt drives, a candy cane fundraiser to benefit the Westwood Community Chest, and the return of Firemen's Foam.

Legislative Council

As elected representatives of the Westwood High School community, Legislative Council members have important roles to play. These dedicated students meet during their lunches to discuss important school issues and see how they can improve aspects of the school community. This year, the Legislative Council has achieved many accomplishments, such as, changing the amount of time kids have to appeal disciplinary actions with Judicial Council. The Student Advisory Board consists of the students from Legislative Council. This year the SAB helped organize Diversity Day as part of Social Awareness Month, and worked with SADD to present a pre-prom assembly.

Judicial Council

Judicial Council is the place to go when a student wants to appeal a disciplinary action. It is comprised of both students and teachers who listen to the student's case, considers the circumstances, and then makes a ruling on the specific issue. Whatever decision is passed needs the support of a two-thirds majority vote.

No Parenthesis

No Parenthesis is a literary and arts magazine, published every year, which features the works of Westwood High School students from every grade. The magazine staff is comprised of a team of enthusiastic students who convene in Ms. Brackman's room each month to pour through piles of poems, artworks, and short stories submitted on behalf of the student-authors, by teachers from the English and art departments. The team works from September until May to complete the magazine. In addition to selecting which works will be included in the publication, staff members edit, organize, layout the content, and ready the magazine for publication. The glossy finished volumes are on sale each spring.

Robotics Club

Ready, Set, Build! Robotics Club prides itself on building a completely student-created robot that goes to intense competition in Boston in March. The beginning of the year is spent building minor robots which enhance skills in specific areas of engineering, while simultaneously fostering a sense of community and helping students learn the value of gracious professionalism. This year the WW robot did exceptionally well at the FIRST Robotics Regional Competition in Boston. The team placed 11th and lost in the quarter finals. It had to compete in a "game arena" where the object was to get the most balls into a certain area.

Best Buddies

Best Buddies is an organization designed to promote friendships between high school students and the students in the TEC and other special education programs. Together, the students play basketball, baseball, board games, take field trips and hang out. During a typical meeting, students start by coming together and finding a friend with whom to play a game or simply talk, and later move to the gym or outside to play sports or games. This year, Best Buddies has raised money for a trip to the New England Aquarium and Quincy Market along with participating in the Best Buddies prom in Franklin. The club provides a great opportunity to make special and one-of-a-kind friendships.

Collegivm Latinvm

New to Westwood High School this year, Collegivm Latinvm had a successful and enjoyable year. Comprised of both students who take Latin class and those who don't, it unites all those who are interested in learning more about Roman culture and lifestyle. Meetings generally begin with Dr. Zarrow talking about what they might do. Then they may watch a movie or engage in more rigorous activities. The highlight of the year for many members of Latin Club was the Chariot Race, where they built a chariot with four "horses," and they brought it outside to race in the school parking lot as bystanders looked on in both confusion and admiration. Students took turns riding the chariot and pulling the chariot, and some even dressed in costume. Mock Trials

Students at WHS interested in criminal justice and other areas of law test their reasoning and rhetoric skills as members of the Mock Trials Team. They prepare arguments for both the prosecution and the defense of a case, not knowing which one they will be challenged to present until the day of the trial. Their goals are to practice hard and study to be prepared for the three trials they attend in real courtrooms and run by practicing judges at Stoughton District Court. The case they dealt with this year was a murder surrounding an Iraqi War Veteran who se plea was insanity due to post traumatic stress syndrome. For two of the three trials, the WHS team argued the prosecution. This year Mock Trials won one of their three matches, and had a great time doing it.

Ecolibrium

Encouraging a more environmentally friendly lifestyle and protecting our fragile environment from pollution are the goals of Ecolibrium, or EcoClub. This club is comprised of a group of driven students working to make our planet a better place. The group is tight knit in its quest for a greener world. During meetings, this club discusses current problems with the environment and finds ways they can help fix them. However, the members do far more than just talk about the issues- they set out and take action! EcoClub has participated in write-a-thons, arranged the "Will It Recycle?" campaign, introduced teracycle boxes in the cafeteria and contributed in clean-ups. Their continual goal is to make the world we all live in a better, greener, and more eco-effective environment.

Photography club brings kids from every grade together, with many different interests, personalities, and extracurricular activities, but with one common interest-- Photos! Every week the members are assigned various topics of what to take pictures of, to challenge themselves. Then at the next meeting they review the pictures on the projector, and give constructive criticism. This year Photo Club took pictures for "No Parenthesis", Westwood Wire, the Westwood fiscal report, and Art and Nature in Westwood. A Westwood inspired calendar. Additionally they went on fieldtrips to local ponds, farms, and Hale Reservation.

GSA

The Gay-Straight Alliance strives to create a more accepting environment for everyone, regardless of sexual orientation or gender identity. This year they hosted The Day of Silence, which is when students choose not to speak for an entire school day to represent the impact it has when someone is forced to keep quiet about who they really are. This courageous act shows the oppression that many young people have to face, because they are not welcomed in their community for being who they are.

We the People

We the People is the school's political newspaper-- the staff documents important government, environmental and social issues and conflicts on local, national, and international scales. At a typical meeting, the staff will brainstorm potential topics, debate issues, and raise new ideas for the layout (a new cartoon or word search for example.) "We the People" consistently put out a new issue every two months throughout the school year. This year the staff also put out Westwood's first "We the Onion", which was a comical satire edition. They typically meet once every two weeks, and under the advisement of Mr. Shuman put out thought provoking articles that inform the rest of the WHS community of what is going on in the world now.

Dance Team

This year's dance team stepped it up when they performed at the basketball games in the Fall and Winter. They incorporated stepping moves, and combined several different types of dance including hip-hop, jazz, modern, step, and rhythmic. They made a mix for their performances and the main song was "Let's Ride" by Chingy, giving the routine a hip-hop vibe to it. The team mixed it up this year by rehearsing with the Step Team, and therefore each learned new moves and techniques from the other.

There, they will take classes at Oxford University- Wadham College, tour the historic buildings and famous locations, and get a feel for the city's culture. They will enroll in 400-level English literature courses worth three transferable college credits. This year the two courses being offered are "The Oxford Fantastsists," and "The Complete Jane Austin." It is sure to be an unforgettable, enjoyable, and education experience for everyone involved.

On Character:

If a tree falls in the woods and there is no one there to hear it, did it make a noise? Character is who you are when you are alone and you are free from trying to prove yourself to others. Who you are when no one is looking is the true test of the strength of your character and the depth of your conscience.

Rebecca McClellan

On Leadership:

We plan on becoming leaders in the increasingly global community of the modern world. If each of us remembers as we go forward that the mark of a great leader is his ability to know when to be a leader and when to let someone else lead, then I have no doubt that we can each fulfill our grand ambitions.

Adam Walker

On Scholarship:

Scholarship is a whole lot more than striving for a perfect GPA; it is having an interest in learning, both in a traditional education and learning about the world around us all. Scholarship means learning because you want to learn, not because you need to learn.

On Service:

Service is an attitude and heartfelt commitment to better the lives of those around us -- the most sincere gift we can give. Through service, we can change not only ourselves, but our peers, our school, our community, our nation, and our world.

Interview with Senior Will Scannell and Matt Sawyer

Tell us about a typical practice. Play 9 holes jovially, recreate a match atmosphere: playing match play and best ball.

Are there particular drills/activities which the team loves? ... dreads? We love bus rides, chipping contests and 21, and team dinners. We love blue orchid runs. The Nally Open is cool too. It’s a free club tournament that we play in when a match gets

rained out. Dreads: playing at Ponkapoag.

Describe a team-bonding activity.

On the van rides we listen to music and talk about what is going on in our lives at the time. Luke provides comic relief which is some times acceptable. We crack jokes while listening to Hall and Oates. Post-match team dinners: Mickey D’s, Islington Pizza “low cost, great taste”.

What does the day of a match feel like? A normal day because we don’t dress up, but we are excited and nervous.

Take us through the

day... Is there something different during school? We are one of the only teams not to dress up for games. We love getting out of school 20 minutes early, then we change in the parking lot and hop in the van.

What are the routines for pre-match? Putting competitions, chipping, strategy, and games of 21

Do any individuals on the team have pre-match rituals? Will and Alex talk to Brendan Crowe at Norfy and Matt Sawyer doesn’t eat on match days.

Tell us about a typical practice. We would typically run up to five miles a day, whether it was a five mile run or a work out which was short distances that added up to five miles. The longest distance we would run would be ten miles.

Are there particular drills/activities which the team loves? ...dreads? Work-outs mostly because they were fast paced and the coach would watch us. We would love long runs because we would slack off since our coach didn't go with us.

Describe a team-bonding activity. For our first pasta dinner at the Sharry's, we threw the freshmen and any other new comers into the pool for initiation onto the team.

What does the day of a meet feel like? School seems so much longer because of the anxiety.

Do any individuals on the team have pre-meet rituals? Mike Sharry and I would always be in the middle of the huddle and dedicate the meet to a previous teammate.

Describe the most memorable meet of the season. Medfield, it was raining at first, but then cleared up and there was a decent crowd for a X-C meet.

Why was it memorable? We had never beat Medfield before, we had a chance to win, but our team fell apart on the last mile.

Seniors, what will you miss most? Pretending to run long-distance runs, Sharry and I being best friends, and showing freshman the shortcuts to take on runs.

Tell us about a typical practice. A typical practice consists of stretches in a circle, drills in lines, a pushup circuit, and depending on the difficulty of the practice, at least a two-mile run followed by stretches and a cool down run.

Are there particular drills/activities which the team loves? ...dreads? The team loved the short runs of course! We dreaded uphill workouts and the pushup circuit. Leg throws were the worst. Leg throws are wicked hard ab workouts.

Describe a team-bonding activity. One specific event was a bonfire at Laura

Brooks' house. We all sat around a fire eating, bonding, and becoming closer as a team.

What does the day of a meet feel like?

I think like any sport, there's some excitement and stress to try hard. Since we do dress-up days, the team gets more excited to beat the other team.

Tell us about a typical practice. We kick around a ball, do footwork drills, and joke around with Eladio and our managers. A typical practice included stretching, a game of possession, a dribbling drill, and then practicing shooting.

Are there particular drills/activities which the team loves? ...dreads? We never were the finest runners. Everyone loved Four Corners which is a shooting drill.

Describe a team-bonding activity. The end of the year pasta dinner at Patrick’s was tons of fun. We had pasta dinners every Thursday which definitely helped

with team unity. The best bonding experience ever was team haircuts. After we made the tournament, we gave everyone haircuts, which is tradition for the soccer team.

Describe the most memorable game of the season.

The last game of the normal season that let us qualify for tournament. The most memorable game of the season was our November 3rd game vs. Holliston. We needed to tie or win to make playoffs. Holliston was the second best team in the league and had beaten us 5-0 the first time we played them. We managed to tie them 0-0 and made the playoffs.

What will you miss most? I’ll miss everything about the games we played.

What advice would you offer underclassmen? As for the underclassmen...it all ends too fast, play hard so you never have regrets of what could have happened if you had tried harder. Are there particular drills/activities which the team loves? ...dreads? Sprinters love the "speed work out" which is usually some full speed and relay hand offs. We dread long repeats.

Describe a team-bonding activity

We don't do much like dinners. The meet in New York is somewhat of a bonding experience. We leave school at eleven and spend the night in NY. There are four to five people per room, so we get to know each other pretty well. This year we got stuck in an elevator for 15 minutes.

Describe the most memorable meet of the season. We were facing Hopkinton and we were not expected to win. We won 70-66 on the last event (4x400).

Did anyone sustain a significant injury? Matt Johnson injured his hamstring when making a pass to Kyle Tucke in the 200m. He was done for the season, but Kyle went on to win the race.

What will you miss most? The team, the coach, and the challenge of each race.

What advice would you offer underclassmen? Have fun and run fast.

“There is something about being in the track mindset”

Interview with Senior Kothryn Martin

Tell me about a typical practice. Usually we meet around 3:30, do warm ups and then either do a distance run with strides or a workout on the track. Then, to end practice, we do weights, a push up circuit or abs.

Are there particular drills/activities which the team loves? ...dreads? Loves= team games (soccer etc.) very competitive Dreads= Ladder workouts

Describe a team-bonding activity. Many times we mix up our practice by making it a scavenger hunt, a soccer game, a relay race, or an underclassman v. upperclassmen game

What does the day of a meet feel like? During school we do dress-up days to psych-up our team, create team unity and inform the school of our meets.

Do any individuals on the team have pre-game rituals? Just recently our team has begun a new calming ritual, we sing! This distracts us from our coming race and helps us relax.

that keeps me motivated.”

Describe the most memorable meet of the season. The meet against Medfield. Westwood girls haven't beaten Medfield in any track event in twenty-five plus years. The meet came down to the last event the 4X400 relay. It was wild, all the seniors were jumping all over the place in joy

Did anyone sustain a significant injury? Laura Brookes has been injured for many seasons of track and xc, this was her first season she was able to train and compete and she qualified for states!

To seniors, what will you miss most? I will miss the friendships we have made as a team, having friends on sports teams is different than friends in school.

What advice would you offer underclassmen?

I would advise them to really make friendships in track. The main goal of team sports is to create those friendships and allow students to have fun while also discovering more about themselves and the level they can push themselves

Tell us about a typical practice. Consists of long-distance run, then agilities, jump ropes, medicine balls, sprints, stick work/shooting drills

Are there particular drills/activities which the team loves? ...dreads? We dread seeing that our coach has brought tools for conditioning such as weights and ladders

-we love any competitive drills, like 3v3 or 7v7

Describe a team-bonding activity. When we have a very important game, our coach will bribe us by promising to take us out to eat after we win. We went to fresh city after we beat our rivals, Framingham. The team loves that we really came together for good food.

What does the day of a game feel like? Games days are very tense and exciting. We go through usually an hour warm-up to get rid of nerves.

Take me through the day...Is there something different during school? We all dress up during the day. Usually on the bus ride we have a boom box that plays pump-up songs.

What are the routines for pre-game? We do a lap, agilities, ladders, shuttles, 7 point star, 3v2, 7v7, then the offense shoots while defense does ground balls. Then we bring it in to a cheer.

Do any individuals on the team have pre-game rituals? All the players taking the field hit sticks. Anna, Mary, Abbie, and I do a special cheer for defense.

Describe the most memorable game of the season. This season the most memorable game was playing Framingham. We got 4 yellow cards. Both teams were extremely tense. Every defensive stop or goal earned a reaction from the crowd. Kids and parents filled the sidelines to watch the game.

Why was it memorable? We have never sustained a lead over Framingham before.

Did anyone sustain a significant injury? Early on, Kate Rich, one of our attackers, got two yellow cards and was out for most of the game.

To seniors, what will you miss most? I'm going to miss the feeling you get at the end of everyday knowing the accomplishments you have earned on the field, and that you are waking up the next morning to do it all over again.

What advice would you offer underclassmen? I would say that whatever sport you choose to play, do it with your whole heart, and when it gets tough, you are growing as a person, and it will only get better once you come through the other side. Also, that you have a whole team full of people going through exactly what you are feeling.

The team loves fast break and shooting drills. The team dreads conditioning, especially suicides and the pyramid-suicide + push-ups

Sunny day. Deciding game vs. Dover-Sherborn for the program. Had never beat DS before. Lost in playoffs by 10 goals to team last year. In a ridiculously tight game 9-9. But still a huge game.

We weren't
just individuals
playing tennis.

Interview with Seniors Rachael Tuleja,
Sarah Chen, and Krista McGinnis

Tell us about a typical practice.

We would meet at 3:00 sharp to stretch and warm up for our run. Sometimes we would go on a team run in military formation. Runs were anywhere from two to six miles. We would run in two straight lines, our feet had to be “in step” meaning everyone’s left foot had to be hitting the ground at the same time. It sounded pretty cool, and when we really got into it we would clap on the left foot. Or we would do paired runs with specific times we had to meet. We also challenged other teams to ultimate frisbee (we beat the JV boys’ lax!) After runs we’d do core exercises for about a half hour, then we’d hit the courts. We played lots of challenge matches, and did a lot of drills. We chatted a lot too!

Are there particular drills/activities which the team loves? ...dreads? The game “Bye-bye” was always a team favorite, mainly because the balls were always flying at our faces. The runs were mainly what were dreaded.

Describe a team-bonding activity. The bonding on the tennis team always included food! We had many pasta dinners and picked out new spirit days -which made this team a lot of fun! Celebratory trips to Bubbling Brook were fun, too!

Take me through the day...Is there something different during school? We started doing spirit days this year! Color day, animal print, tie dye, etc.

What are the routines for pre-match? Before the match a motivational speech was always given by Houston, and the rest of time was designated to chatting and hitting to warm up for the match.

Describe the most memorable meet of the season. The match against Medfield had to be the match of the season, after playing Medfield a second time this year we were able to beat them making it the first time in over seven years to have won against Medfield, making it a huge victory for the team.

Did anyone sustain a significant injury? Krista had shoulder tendonitis and missed the first half of the season.

To seniors, what will you miss most? Houston and all the girls <3

Advice to underclassmen? Work hard in the off season. It will pay off.

Tell me about a typical practice. We warm up by doing three laps around the three courts. Then we stretch dynamically and statically, and then we do 15 push ups and 10 jumping jacks. Then we play mini tennis and progress back to the base line. Then we work on drills and finish with a game.

Are there particular drills/activities which the team loves? ... dreads? We like to play “the lob” game and ex-

treme around the world. We dread doing suicides

Describe a team-bonding activity One time we went to the Old Country Buffet as a team. It was very interesting; we had a good time talking about the upcoming season

What does the day of a meet feel like? There is tension in the air; we become predators on the court

Do any individuals on the team have pre-game rituals? Most of us eat sunflower seeds or listen to music

Describe the most memorable meet of the season.

Playing Ashland the second time. We lost the first time at their courts. We played through poor calls and it came down the sophomore Matt Lavine and he won it in the third set in a tie-breaker.

Why was it memorable?

We overcame adversity and avenged our first loss and got back to .500 record

To seniors, what will you miss most?

Are there particular drills/activities which the team loves? ... dreads? We loved relays down the field and Mr. Sherr's make-up point drills and we dreaded losing wagers on errors for sprints.

Describe a team-bonding activity

During all our pasta dinners our team really bonded, and it was always great when Mr. Sherr came to the dinners.

Describe the most memorable game of the season. It was May fourth at 3:45 pm. The day was sunny and hot. We played Medfield for the second time after losing to them before. After several scoreless innings we came back big and won!

In a show full of blurred gender lines, Mary McDonnell starred as Viola, a girl posing as a boy to gain the trust of Duke Orsino... and maybe his heart along the way.

The students on technical crew are the unsung heroes of the show. They man the lights, manage microphones, and everything in between. A perk: they might go on the catwalk above the auditorium!

Rebecca McClellan captured the show's hilarity as the clown, making faces and cracking jokes all while providing insightful commentary on the play's events. Talk about multitasking!

Evan Rees shocked and awed when he donned yellow, 'cross-gartered' tights as Malvolio and memorably danced his heart out to 'Good Day Sunshine'.

Love Me Do

Brian Molloy, (left with Jillian London as Curio), played the over-the-top lovesick Duke Orsino. To push the cast to similar melodramatic heights, director Jim Howard held an 'anything goes' rehearsal, in which Brian famously hiked up his shirt and put on a southern accent.

Love Me Too

Love ties in this play switch faster than you can say "midsummer madness". Olivia (Madelaine Bugeau-Heartt, above with Elizabeth Haffey), doesn't mind that the boy she has been chasing is really a girl- she'll just marry Sebastian (Brianna King, left)!

Twelfth Night

...or what you will

Twelfth Night...or what you will: Take the greatest British playwright, Shakespeare; toss in the greatest British band, The Beatles, and you have potential. Add to the mix the fearless energies of a dedicated group of actors and you come out with a night of theatrical magic. For three nights in November the cast of Twelfth Night took us to a land where Love and innocence ruled over all. The audience watched as Viola (Mary McDonnell) went on a journey of mistaken identity and mixed up love. Along the way she ran into a clown (Rebecca McClellan), the uptight, yellow-stockinged butler (Evan Rees), the mischievous house maid (Hannah Hammond), a pair of drunken buffoons (Scott Delisle & Aaron Kessler), an over-eager lady (Madeline Bugeau-Heartt), and the love of her life (Brian Molloy). With a collection of dancers reminding us along the way that Love can be pure and innocent, Twelfth Night proved to be a delightfully fun and silly evening of theatre for all who came.

Zombie Prom

Cruisin' for a Bruisin'

It takes a real rebel to shake up someone like Miss Strict (Madeline Bugeau-Heartt, below), who always has a whistle in hand and snarky remark up her sleeve.

'It's another day, but not just another day'

The place: Enrico Fermi High School. The time: The nuclear 50's. Jonny (Brian Molloy) is from the wrong side of the tracks. When Toffee (Charlotte Malin) is told to stop dating him, he plunges himself into the local nuclear power plant. Jonny returns as a nuclear zombie, and all he wants to do is go to the prom! Standing in his way is Miss Strict (Madeline Bugeau-Heartt), the school's uptight principal. Investigative reporter Eddie Flagrant (Evan Rees) is on the job to break the news and rekindle an old flame. With a school-full of energetic teens, dead boyfriend puns, and a Tango that brought down the house, the Cast and Crew of Zombie Prom exploded off the stage every night with song, dance and energy that brought audiences back again and again.

ARTS

Encounters with the Arts is an annual showcase of students' work in the visual and performing arts. This year the Arts Wing was transformed into a gallery displaying works created in all classes, from beginner to advanced. Students demonstrated art-making processes, like the potter's wheel and silk-screening. Drama students performed short works, and the Drama Club performed their original short play "Harry Potter and the What-if's," in the Little Theater. Throughout the evening vocal and instrumental groups performed a wide range of pieces, from classical to contemporary. At to top things off, the National Art Honor Society hosted Project Empty Bowls, an ice cream fundraiser to benefit The Greater Boston Food Bank.

Throughout the year, the music department presents concerts to showcase the hard work and talent of students in music classes and extracurricular groups. The two major music events, The Winter Concert and The Pops Concert, feature the Wind Ensemble, Passing Notes, Chorus, Orchestra, Concert Band, and Combined Band. These student groups perform for their parents and community members in the evening concerts and for their peers during school assemblies. At this year's Pops Concert, members of Passing Notes gave a memorable performance of a medley of Disney classics. It was also a highly celebrated and memorable event because it was Mr. Giurleo's last concert before his retirement.

High school is where you heal old friendships, make new friends and lose some along the way. I will always remember three things, bitter cold football games huddled close with my classmates, lunches spent laughing hysterically about nothing at all and the friendships I had, have, and will always keep. I hope I'm remembered as the girl who could count "all of her hands on her friends".

"We all have our time machines. Some take us back, they're called memories. Some take us forward, they're called dreams." The past four years of high school have been unforgettable. As I look back and reflect on so many memories I realize that high school has taught me so much. From Newtonian Mechanics to Varsity Soccer, I've enjoyed every minute of it. Thank you Mom, Dad, Muhamed, and all my teachers for all you have done for me. As I look to the future and follow my dreams, I'll always look back and never forget these years.

Elizabeth Haffey

"When did we forget our dreams? The infinite possibilities each day holds should stagger the mind. The sheer number of experiences I could have is breathtaking, and I'm sitting here refreshing Facebook. We live trapped in loops, reliving a few days over and over, envisioning only a handful of paths laid out ahead of us. We see the same things each day, respond the same way, think the same thoughts, every moment smoothly following the curves of societal norms. We act like if we just get through the day, tomorrow our dreams will come back to us" (Cont. Alex Moin).

The Class of 2009 is defined by the various personalities proliferating through the body of students. These are people that I'll never forget. I think the final song in Zombie Prom defines our close-knit class of 2009, that no matter where we go, we will always have each other. We made it through fire and tribulation, always laughing and having a good time. I'm glad I was a part of that experience. I want to be remembered as a good friend, an individual of strong character who would always stand by his peers, no matter what.

Stuart Leibson

Life is too short. Grudges are a waste of perfect happiness. Laugh when you can, apologize when you should and let go of what you can't change. Love deeply and forgive quickly. Take chances, give everything and have no regrets. Life is too short to be unhappy, you have to take the good with the bad, smile when you're sad, love what you

got and always remember what you had. Always forgive but never forget. Learn from your mistakes but never regret. People change and things go wrong but always remember life goes on.

Jonathan Mellor

(Cont. from Elizabeth Haffey) "And nò, I don't have all the answers. I don't know how to jolt myself into seeing what each moment could become. But I do know one thing: the solution doesn't involve watering down my every little idea and creative impulse for the sake of some day easing my fit into a mold. It doesn't involve tempering my life to better fit someone else's expectations. It doesn't involve constantly holding back for fear of shaking things up. I want to say it as clearly as I can: live, not survive." -XKCD 'Dreams'

Brian Molloy

Nine shows, four years, seven blocks a day, seven best friends. High School is a numbers game, applying to college, getting the grade, landing the part, everything, and it all has to do with numbers. But you know what has nothing to do with numbers? Friends, memories the most important things in four years have nothing to do with numbers. After high school I am hoping I never have to take math again but I will have the memories and my best friends they will always be there. Life's short live it up while you can.

First I'd like to thank my parents for their love and support, my brother Joe for being my best friend the past 18 years, and my girlfriend Erin for making these last two years extra special. I love you all. And to the class of '09, our time has finally come. Although we'll all be heading

our separate ways, we'll never forget the friendships we have made, the memories we've shared and the good times we had at WHS. The bond that we were able to form the past four years has made us a community. So when that time comes in June to throw up our caps, remember that it's not goodbye, it's only "cya later". And as we look toward the future we can remember this advice: "even when the world says quit, dream on until you know you're living it." Shine on class of 09, it's been real.

Gary Novoson

Some say not to get too caught up in the little things, just like Mr. Dillan would have told you "Don't miss the matarcycle." However, in my opinion, in high school, it is the little stuff like super bowl parties, scraps, fests, making a run with mack trials, or taking anger out with tennis that build the fondest memories. It is the people around that make high school an unforgettable experience and they are deserving of acknowledgement. Thanks to all my friends, family, and teachers that made it all possible.

Cindy O'Brien

High school was a good experience to look back upon and it's pretty crazy that it's over but I'm looking ahead to the future because I have big plans. I enjoyed selling my shirts and seeing them on people around the school, and it was fun hanging with friends and creating lasting relationships. I personally don't care how I'm remembered because the only thing I'm gonna be doing is making money and I invite anyone to try to stop me. YESSIR!!! O.n.e.

Tony Xia

Westwood High School is a place I will never forget. It has taught me so much more than academics. I'll always miss the memories and the friends that I've made here. Thank you to my family and friends for making my four years the best that they could be.

Krishna Yelleswarapu

Life is like a camera. It takes snapshots of memorable events and stores these memories forever. One important snapshot for me has been math class with Mr. Ouellette. Tackling an AP Calculus BC class left no room for excitement. However, while challenging our minds with vigorous math formulas and concepts, Mr. Ouellette found a way to add fun into the curriculum by having a sketch-off that counted down the remaining days left until the AP test. Leaving this math class, I want to praise Mr. Ouellette for his hard work and dedication in making Calculus a great math subject for me.

Colleen Zapcic

"Cause these were the days worth livin. These were the days we were given. And these were the moments, these were the times. We made the best out of our lives". Sophomore year. OTH Superfans. Partridge Drive. Canton. Homeroom 103. Christies. Mississippi 07 & 08. exceeding the absense limit. Bridgewater. Country Fest. TSwift night. CBrown and JSparks weekend. MC parties. E block Stats family. CD- best soccer managers ever! 8th grade forever PammyG. see ya westwood high. "Every new begining comes from some other beginings end".

Stephen Zeng

Alas, it is finally the end of four years at Westwood high. It was the best of times, it was the wors...best of times. We seniors, like the nomadic sparrow, journey away from home in hope of a better tomorrow. But the times at Westwood cannot be ignored. The times spent here can only be summed up in a single word: unforgettable. Cube stadium in Syd Malaxos' class, science team bus rides, WCCN with the short lived, but nonetheless entertaining, WHS dragon team, diversity day booths, NAHS bowl making afternoons, B block library gang: it is indeed crazy to be Chinese in Minnesota, and many more.

Matty Zola

As I depart Westwood, I will miss listening to UB40 with the crew, our adventures with the Burrito Brigade, the constant pursuit of the ever fleeting "Bucket List," the dynamic demolition duo, 20 year NCAA dynasties, the "peppermint twist" after little league games, pointless arguments about nothing, no, yes, CST, dropped hats and the lack of a sierra mist shower, my bff but don't tell Frobes, rockband until 4am, Build-a-Bear, the civic center, the Sheehan bball crew, the friendship train, David Dwayne Dagenhardt, Jim Brew, the bridge to Tera-bythia, and Erin, my best girlfriend since sophomore year. Whoop.

LATIN OLYMPICS with Dr. Zarrow are a highlight of the Latin experience. Students participate in events such as hoplite races, and javelin throwing.

MR. MAO'S BIRTHDAY Students and faculty showed their love and appreciation for Mr. Mao by dressing up in his signature white dress shirt and tie on his birthday.

JR vs. SR GIRLS' FOOTBALL Junior and senior girls donned their class colors and faced-off on Flahive Field for a spirited football game to celebrate Homecoming Week.

SENIOR WEEK

Seniors vs. Faculty

Softball

The teachers schooled the students in and out of the classroom with a final score of 12-10!

Seniors'
DAY at the

BEACH

Seniors had a beautiful day for enjoying the waves, playing games and picnicking at Crane's Beach in Ipswich!

DON'T STOP BELIEVIN'

The Class of 2009 doesn't waste a dance floor! The party was going so strong that the DJ continued playing long after the boat had returned to harbor.

The Senior Cruise

On the third day of Senior Week, The Class of 2009 donned its summer semi-formal wear and boarded the luxurious "Spirit of Boston". As the boat sailed around Boston Harbor, the class enjoyed the buffet and the Yearbook Staff announced the results of the class vote for senior superlatives. After lunch students mingled on the upper decks and enjoyed the amazing scenery and warm winds. By mid-cruise the dance floor heated-up and Paul Hatfield, Jake Williams, Greg Thompson, and Josh Cheung revealed impressive and amusing solo moves. The day ended in the typical '09 style- an extreme dance party and the class packed on the dance floor singing Journey's *Don't Stop Believin'*.

“ The senior cruise was the last time our class came together before graduation. It was then that I realized that I had spent twelve years with these people and that we were all going our separate ways. ”

-Stephanie Sukennik

“ I loved the final moments of
the cruise when we all belted out
tunes and danced together.”

-Jennifer Franchi

In order to embark on the next stage of our lives, we must leave behind a school community that we know and love. We are frightened to explore such uncharted territories that await us in the future, but we also move forward with a sense of hope. ”

Graduation

All Night Graduation PARTY!

Look! It's a bird...it's a plane..., no, it's the super-heroes-themed ALL NIGHT GRAD PARTY! The Class of 2009 graduates were treated to non-stop activities, including: the "Wrecking Ball;" Old-time photos; Manicures, face-painting and hair-braiding; make-your-own-music videos, and even a mechanical bull! The evening's entertainment included fortune telling, Simon-Says, a mind-boggling and hilarious show by the hypnotist, and guest appearances by some familiar looking comic book heroes (even Mr. Sherr in spandex!) Thanks to the committee of parent volunteers who made the night so much fun and so memorable!
